

SKAGGS
FOUNDATION

At Skaggs Foundation, our mission is to support community initiatives that improve health and wellness in Taney and Stone counties.

Here are a few ways we support our community:

- Skaggs Foundation is pleased to provide scholarships to students pursuing education, certification and degrees in the health care industry. To be eligible to apply, students must be a resident of Taney or Stone counties in Missouri or Boone County in Arkansas, be employed by Cox Medical Center Branson or have a family member employed at Cox Branson. Since 2002, Skaggs Foundation has awarded more than \$312,000 in scholarships to area students.
- Following a heart attack, a patient can expect to pay on average \$900 out-of-pocket to attend 12-weeks of cardiac rehab – rehab that is vital to helping the patient rebuild strength and endurance. Skaggs Foundation is proud to provide a Cardiac and Pulmonary Rehab Scholarship Fund that ensures no patient is turned away from these important services due to the inability to pay.
- Babies don't come with instructions. Thankfully, there's **FeelBetterBaby.com**, a website where you can learn valuable information on caring for your young child, how to plan for a well-baby checkup and what you need to know when your baby is sick. This Skaggs Foundation project is made possible by a generous grant from Missouri Foundation for Health.
