## Once upon a time...

There was a 4,000 sq. ft. home in the middle of Branson proper, at the end of a cul-de-sac, adjacent to a forest, in the popular Branson North Subdivision. It was so unique because it was the only one left for sale with 6 ACRES. Each day, all the deer and turkey came up through the gently sloped meadow, to look up to the sunroom in back, and see if the new owners had arrived. But all they saw was a cathedral ceiling, a Brazilian Cherrywood floor, 2 large living areas, 2 dining areas, 4 bedrooms, 3 baths, a bonus room and a 2-car garage. Will you be the happily ever after, all the deer and other wildlife are waiting for? **6 ACRES in Branson North! What are you waiting for? #60090058. \$399,000.**
